### 10 DAY HUNT

**\$1,300.00 U.S.**

Per Person Tax Included

Based on two hunters

Welcome to

## O'Sullivan's Rainbow

**Located in the wilderness of Northern Ontario 35 miles Northwest of Nakina**

The Archery Moose Hunt takes place in unit 18A. This unit is approximately 130 miles by 40 miles. The MNR along with OMBAAC regulate the number of tags issued for moose harvest on a seasonal basis. Unit 18A has about 115 adult archery tags allocated for resident and non-resident hunters. These tags are offered in package hunts through area outfitters, or resident drawings. O'Sullivan's Rainbow offers this package per two hunters, one Bull. Party hunting is allowed and encouraged.

**This is a self guided** hunt with assistance on our part of orienteering you to our area and providing information on areas of hunting interest, sightings of animals, and past experience. Most hunters use calling and stalking methods, setting up in an area after a response to your calling, Another hunting technique of spotting Moose using shallow bays or river crossings is used by some of our hunters. The hunt usually takes place during the rut in mid September to early October.

**Moose Hunt Packages** start off with an orienteering session of our area, going over maps, some scouting if time permits. You will stay in a comfortable lakeside cabin with unlimited use of a 14'boat and 9.9motor. Pre hunt knowledge of moose, their habitat, calling, researching topo maps and practicing with your equipment are beneficial to ensuring a successful hunt. An ATV for scouting and hauling is very helpful but not necessary. Most often, the success you desire is in what experience is gained. Come challenge yourself, pursue the majestic Moose and feel the thrill.
